

CCS Transition Plan for Secondary Math

Current 8th Graders Starting HS in Fall 2012

Current 6th and 7th Graders Starting HS in Fall 2013 and Fall 2014

Notes: All current students in Algebra I or above will take the traditional course sequence. This diagram does not consider pathways, nor does it show the STEM/Humanities Math III options. The purpose of the document is to show the progressions that we will implement for each 8th grade class as they transition to HS.
